Call for Papers :

The University of Kırkkale, Turkiye, organized the 1st edition of the international congress on "Children in All Dimensions" from October 17 to 19, 2024. It was a cultural and scientific event with valuable contributions from researchers worldwide. Presentations focused on improving care for children from a global perspective, encompassing mental, psychological, social, legal, and environmental aspects. The university of Blida2 participated in this congress and presented its own experiences in this field.

Given the significance of this theme in modern society, where family, school, health, law, literature, culture, social networks, and modern technology play a substantial role in shaping children's personality and ensuring their rights and mental and physical well-being. It is crucial to continue discussing and exchanging research and experiences among societies and academic institutions to enhance our understanding of contemporary childhood issues and help provide appropriate solutions.

The university of Blida 2 with its partners, invites all researchers, academics, experts, and childhood professionals to participate in the 2nd edition of the congress "Children in All Dimensions," scheduled from December 9 to 11, 2025, at the auditorium of Blida 2 University, Algeria

Important dates :

-Deadline for sending presentations :

November 20th, 2025

Response to accepted presentations must be sent no later than

December 1st, 2025

the congress will take place from

December 9 to 11, 2025

Congress Objectives:

This Congress seeks to achieve the following objectives:

Shedding light on the psychological, educational, social, cultural, health and nutritional reality of children in all over the world.

Promoting awareness of children's rights and urging States to fulfill their obligations to achieve them.

Strengthening cooperation relations between various universities on children.

Strengthening the role of organizations active in children's rights to ensure a better quality of life.
